

## SRT Deluxe To-Do

With recent mobile device technological advancement, Smartphones are now with more functionalities than ever. Integrated with advanced software and hardware, there is virtually nothing that a Smartphone is not capable of accomplishing. Mobiles have become an integral part of every modern men and women's life. Armored with Smartphone's strong multimedia capabilities, a simple yet necessary on-cellphone to-do software utility can now be improved to better facilitate users' needs and offer more usable and user-friendly functionalities.

Deluxe To-Do includes audio recording, camera, and alarm notification features. Packaged with its intuitive and user friendly interface, Deluxe To-Do offers users usability way behind other conventional note-taking applications.

### FEATURE DESCRIPTION

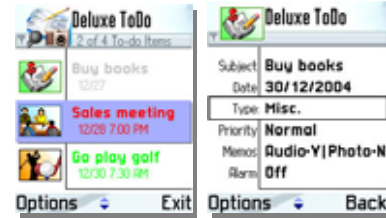

Function Highlights of SRT Deluxe To-Do:

1. Alarm reminder for to-do items with a specific deadline
2. Quick reminder recording and playback.
3. Audio Reminders of all To-Do items can be played back to back with no interruption
4. Use build-in camera to take snapshots as an enhancement reminder of the to-do item. Pictures taken can be used in conjunction with voice reminders to make users browse and understand the noted tasks more easily and efficiently.
5. Use different color schemes to indicate to-do items' priorities.
6. Sort to-do items based on priority or date for easy viewing

#### I. Task Summary View

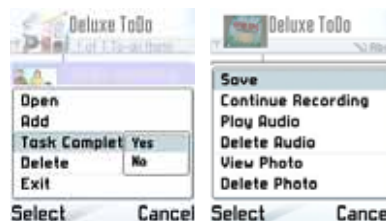

- Open, Add, and Delete each to-do Task.
- Set selected/highlighted To-Do Task to be completed or not completed
- If highlighted To-Do Task has an audio message, Play the selected audio memo
- Exit DulexTo-Do

**Download a Trail:**
